Court Calendar—This Day.
Common Plazs.—Part 1—Nos. 6:, 137, 99, 119, 139, 141,
143, 145, 147, 109, 137. Part 2—114, 136, 138, 140, 142, 144,
146, 146, 100, 23.

Thursday, March 26—6 P. M.
There was a moderate penic in the stock market to-day.
The war news from Washington has had a very unfavorable effect upon prices, and a decline of from a half to two per cent was experienced. Long Island fell off 1½ per cent; Canton ½; Harlem 2; Norwich and Worcester 1½; Reading Railroad 1; Fennsylvania Fives ½; Farmers' Lean ½; Morris Canal, and Ohio Sixes, closed at yesterday's prices. United States Sixes sold at 109, on six menths—the previous asking price was 111½, but no sales.

Prices recovered a little at the Second Board, but it is our impression that the firmness in the market to-day, at the decline, was caused by the appearance of the shorts at the Board as purchasers, to fulfill their old contracts.

ton & Providence, and Boston & Worcester roads—to be THE MURDERERS CAUGHT. reviewed every ten years—until then they may charge THE NATIONAL POLICE GAZETTE of Saturday. so cents, merchandise 43 cents. The mail to be carried on the road at Eastern rates. The company to pay an annual tax of one-half per cent till 1st February, 1861; and three-fourths per cent thereafter, on cost and capital paid in. The charter is perpetual, reserving no rights for repeal or amendment; excludes rights to forty miles in width across the State, for railroad purposes.

We annex a statement exhibiting the movement of the sak of Montreal, for several months past :—

Total average assets, .£1,725,856 1,761,480 1,749,681 1,741,761 2ccss of assets over in-bilities,......£813,643 862,807 796,798 801,415 There has been a decrease in the excess of assets over bilities since Nevember, 1845. It will be observed

abilities since November, 1845. It will be observed not the operations of this bank have been very uniform rithin the past six mouths, and that the increase in circulation has been attended with a corresponding increase in the amount of coins and builion on hand.

The report of the directors of the Bank of France, of the operations of that institution during the year 1845-nows that the movement of the bank, during the last ear, amounted to the sum of 1,498,507,000f., an amount

or smoonsed to the sum of 1,200,007,000. In amount or before equalled during any preceding year. Comparitively to the operations of the year 1844, the insec is 388,000,000f., and the dividends on bank stock sequently increased from 107f, in the year 1844, to f, in the year 1845. "What will be the results of the insequently increased from 107f, in the year 1844, to 36, in the year 1845. "What will be the results of the lar 1846," says the report, "we know not, nor have we pretension to predict. All that we can declare is, at the money market is more calm, and that specularities are lower, and commercial bills at a long date are less plenty, circumstances which frequently occur at this ceasen of the year." It pears, likewise, from this report, that the amount of mmercial bills discounted in the year 1845 increased a sum of 264,293,100f, comparatively with the year 44, and produced a sum of 1,577,306f. for the discount on reasury bonds and city debentures, has decreased by a m of 757,000f. in amount, and 10,000f. in produce of counts. These operations become every year less portant. The reason is simple—those securities much ught for temporary purposes, have been negotiated by a Treasury with much parsimony and at the lowest c of interest. The issues during the last year have affect of necessity, declined to pay 4 per cent dismit on them." In conclusion, the report states, that direct relations between the Bank of France and the direct relations between the Bank of France and the address of the period of the pe

The increase in the consumption of the luxuries of life in Great Britain, as exhibited in the above table, is one of the best evidences in the world of the improvement in the condition of the people of that country. The increase in the quantity entered for consumption, corresponds very nearly with the increase in the quantity imported.

SCHENCK'S PULMONIC SYRUP

FOR THE CURE OF COUGHS CONSUMPTION.

LIVER COMPLAINT SCROFULA, &c.

In is Strup has made more and greater cures than any other remedy in this country. The reason of its success must be apparent to every person who investigates its meritu, as R is hased upon principles that cannot be controverted. It ripens the matter in the lungs, and assists nature to expel it from the stometh and liver.

Those who have used it, siways testify to its healing virues, for their safferings are allayed and health restored through the balmy influence of the Pulmonic Syrup. In the whole world there is no medicinent that has made such great cures, as all the certificates that have been published are true to to to leiter, and a unerous others may be seen at the office, No. 4 Courtlandstareet.

The gename Pulmonic Syrup is prepared exclusively by the proprietor, and is for sale at his principal office, No. 4 Courtlandstareet.

LATEST INTELLIGENCE BY THE MAILS.

WASHINGTON, March 24, 1846.

The Turiff—The Mexican and the Oregon Question.

The political news from the United States is, I The political news from the United States is, I find, looked for in England with as much anxiety and interest, if not moret, han we seek after foreign news here. A free trade paper, the Economist and Weekly Times, of February 21st, speaking of the year's notice, says:—"It may pass the House of Representatives by a majority, but there is no chance of its being successfully entertained in the Senate. There the efforts of Mr. Calhoun, and the influence which he exercises, will render its rejection certain." With what certainty this paper seems to speak! In the same article it goes on to say: "The party favorable to protection, and opposing the government in the reduction of the tariff, are becoming the loudest and most violent in their demands as to the terms on which the Oregon dispute shall be settled.

* * * Mr. Walker will, no doubt, be able to show that a large revenue can only now be secured in the United States by moderate duties.—
That duty will yield the greatest revenue which admits the greatest amount of imports."

I give these extracts from a British paper of some weight, for what they are worth, deeming them, myself, worthy of consideration. I remember once have

TWENTY-NINTH CONGRESS.

In Senate.

Washington, March 28, 1846.

Merning as transcendantly rejuvanescent as the coming of Aurora over the plains of Exdrasion.

Prayer by Rev. Mr. Milburn. Journal of yesterday. Patitions were presented by Mr. Dix, on the subject of Rood's plough patent; in favor of an increase of daty is coarse wool; from the Lyceum of Natural History of New York, for an extra edition, for circulation, of the books of the Exploring Expedition; from James Buchanan, late British Censul, for refunding of certain expenses; and from Western New York, for abrogation, of certain Indian treaties. Measrs. Dickinson, Barrow and others, presented petitions.

Mr. Camenow made a report relative to the Washing ton Newy Yard. Mr. Johnson, of La, Mr. T. Clayton and Mr. Ashley, also made reports.

Mr. Barsser made a long and detailed report, secon mending an additional tier to the people's gallery of the Senate, and certain additions also to the reportar's accommedations, the whole to be under the direction of Robert Mills, Eq. the distinguished architect of the public buildings, at an expense not acceeding \$4,000.

On motion of Mr. Barssen, ordered to be printed for the use of the Senate.

Mr. Berssen, from the Judiciary Committee, reported a private bill.
